Purely Business!

The columns of a newspaper represent a cash value. No publisher can afford to pay for advertising any more than a merchant can toss over his counter frank gifts of dry goods, hardware, groceries, etc., in legitimate business concerns. Its cost is a definite expense, and no advertisements should be paid for, no matter in what part of the paper they appear.

We Have!

Always contended for and maintain it is a fact that there is a higher order of intelligence evinced in the business of general merchandising by the people in this and nearby counties than most anywhere else. Our many years experience goes to show that people want good goods and fair prices, and will go to great expense to get them. Our 1885 spring business proves that the higher the class of goods the ready they sell. Our beautiful Black and Blue Serge Suits (we sell them at \$12) have bounded into wonderful great favor with our good dressers. We have a beautiful line of them. The weather is getting right for our

The Insurgents Are in Force and Well Supplied With Arms and Ammunition.

SAMPSON IN COMMAND IN THE FRONT.

A Combined Attack on the City, Harbor and Spanish Fleet to Be Made.

The Alleged Peace Movement of the Queen Regent Has Not Yet Taken Any Form Either at the State Department or Foreign Embassies.

Washington. June 3.—It was plain noticeable at the navy department Thursday that the officials were expecting news of the first importance, but that they did not look for it immediately. The firm belief with them was that the insurgents would have had no general engagement with Spanish forces, ships and forts at Santiago, as was reported, appeared to be based on the plan under which the commando is acting, and the greatest concession that they would make toward admitting that a fight had taken place there Tuesday was that they might have detected some earthworks going up and had razed them with their shells. They were confident he made no attempt to enter the harbor. It is believed, however, with Sampson in the field and the Spanish from San Juan with an augmented force, that interesting events may be looked for. There are expected to, notwithstanding the fact that no troops have yet started from Tampa, as was established by inquiry at the war department Thursday afternoon.

The insurgents are known to be in force in the neighborhood of Santiago, and the Spanish fleet, probably, will not out of its base have been in communication with them but has supplied them fully with good weapons and an abundance of ammunition. The headquarters of the rebels in the Cuban provinces, Garcia are distant from Santiago only about 75 miles, so that it is possible Sampson feels strong enough with their supplies to begin the assault by sea upon the nearest Spanish bases and forts without awaiting the arrival of the United States troops from Tampa. The trend of the news that came to Washington from all sources on Thursday afternoon was to support this belief, so there is some ground for the expectation of the officials that important information may be expected shortly.

The Spanish government has made a protest to the British authorities against the shipping of Canadian coal from British North America to San Francisco for the relief of the ships of Adm. Dewey at Manila, and also against the shipping of coal from Nova Scotia to Atlantic ports for use by United States war ships operating in the West Indies.

In view of the ruling by the British government that coal was contraband of war this protest by Spain might have caused considerable embarrassment, as the Canadian coal is considered by the naval authorities to be a superior article for the use of our ships. In only a short distance from the British North American coal fields to San Francisco and the Nova Scotian coal fields are also easily accessible to Atlantic ports, but the protest, however, that Spain's protest was not proved of any avail. The subject was referred to the Canadian authorities who, upon investigation, learned that the coal shipments to both Canada and British North America and from Nova Scotia were in the ordinary course of commercial transaction. They were made by private parties in Canada to private parties in the United States. While the coal was sent to the port of Tampa it was held to outside the province of the British and Canadian authorities. It is probable that the protest of the British government would have been stopped, as these would have been manifestly a breach of the neutral attitude maintained by the British government and its colonial possessions, including Canada.

If the queen regent of Spain has instructed Senor Castillo to ask the powers to intervene for peace, that movement did not take place in Washington either at the state department or at any of the foreign embassies. Among diplomatic officials it is thought to be quite possible that Spain is moving in that way toward making peace, but it is not believed this will meet any active assistance from the great powers. As one leading diplomatic official said, "We know that Spain will not be in the same condition of isolation in which France was in 1870." At that time M. Thiers, afterwards president, went from capital to capital seeking to secure the cooperation of Europe with France in his mission, which was a failure. The mission of Castillo is said to be like that of Thiers and the diplomatic officials believe it will meet with the same fate. It is known that Spain has counted most on arousing the active interest of France, but it has been unsuccessful. The French authorities have not heard of any negotiations for making peace, past the time that the authorities at Paris have not taken up the propositions of Senor Castillo for intervention in behalf of Spain.

Arrangements Made for Concentration of a Large Number of Troops There Under Gen. Custer.

THE LONG CRUISE.

The United States Battle Ship Oregon Reached the Squadrions Thursday Morning.

SHE MET WITH A HEARTY RECEPTION.

Solid Ranks of White-Clad, Cheering Sailors Manned the Sides of Each Vessel Passed.

Exchange of Visits Began, and the Officers and Men of the Oregon, the Navy's Crack Heavyweight, Were Heartily Complimented and Welcomed.

ON BOARD THE ASSOCIATED PRESS DISPATCH BOAT DAUNTLESS. May 29

KEY WEST, Fla., June 3.—The United States battleship Oregon joined the fleet. The recent remarkable long distance cruise in the history of modern ironclads. Her reception by the fleet was worthy of her achievement. Coming along at a grand speed, she swept in a majestic semi-circle around the fleet, to the point opposite the ships of the Associated Press.

The first news of the Oregon arrived at Key West was brought to the squadron by a dispatch boat soon after sunrise. The fleet was consequently on the lookout for her when almost immediately the ironclad turned broadside to the northwest horizon there was vigorous wig-wagging from ship to ship. Marine glasses showed the ponderous outlines of the navy's crack heavyweights, and showed also that she carried "one bone in her teeth," as she piled up the white water on each side of her bow.

"Fifteen knots, if it's a mile," was the verdict as she ran in on the homestretch of her long journey, and

AT TAMPA.

No Troops Have Left There, and it Is Not Believed Any Large Movement Will Take Place in the Near Future.

TAMPA, Fla., June 3.—There is but little change in the general situation here. It can be said positively no troops have been embarked at this point, and until definite official news is received from the fleets of Sampson and Schley it is to be generally expressed that no movement of troops here or in the direction of Cuba will be ordered. The powerful fleet of Adm. Cervera is still much of a factor. It is the opinion of the authorities to assume any more risks than absolutely necessary in sending a big fleet of practically unarmed, and therefore nearly helpless transports and gunboats to Cuba. For this reason until such time as a sufficient number of United States warships can be spared to insure protection to their destination, no move from here is expected. When this will be uncertain. Although nothing official can be learned on this point it is not believed any large movement will take place in the immediate future.

MADRID Says CERVERA Escaped.

LONDON, June 3.—A Madrid dispatch quotes the Imperial to the effect that the Colon of the two Spanish vessels remained in Santiago. She was detained by needed repairs to her boilers. The other ships slipped away two or three days ago. The London Mail, which was silent since the departure of the Imperials, advises invariably accurate, and that the Spanish cruisers probably escaped during the confusion of the attack by the British and the Clinton.

Often on the green leaves of trees you will notice little black spots which do not seem to arise from any disease, as the plant looks otherwise healthy enough. As a matter of fact, these are caused by burning, the rays of the sun get focused by the drops of morning dew.

Get More and You Get Less

Why is it every sarsaparilla which tries to sell itself, ranges itself against Ayer's and the standard? Why is it that all have to offer extra inducements—bottles, fancy wrappers, cheaper price—anything, everything, but the one inducement of quality?

Ayer's Sarsaparilla

has never been equaled by any cheap imitation of it, and quality tells, just as blood tells.

It is the Standard.

"I have sold Ayer's Sarsaparilla for more than twenty-five years, and have never heard anything but words of praise from my customers; not a single complaint has ever reached me. A preparation must exert a great many virtues to receive a recommendation. I believe your sarsaparilla to be the best blood purifier that has ever been invented. The general public has not seen other names before me, so that this is as good as Ayer's," but one ever yet heard it said that Ayer's was "as good" as another. Ayer's has always set Ayer's up as the standard of excellence."—S. F. Boyce, Duluth, Minn.

COX FOR CONGRESS

Press Opinions on the Candidacy of Our Fellow-Citizen.

LOOKS LIKE HE'S IN THE LEAD.

Cyrus Cox Democrat.

THE MAYSVILLE PUBLIC LEDGER backs Mr. W. H. Cox strongly for the Republican nomination for Congress. Mr. Pugh is saving a great deal of wood, judging from the intense stillness around Vanceburg. And grim and gaunt stand all the Republican newspapers of the District, saving, of course, the fearless LEXON MUM as oysters, communicative as clams, the great apostle of high Tariff, strong trusts and impregnable combines await in gloomy silence the vaulting of the feline. Why don't they have the courage to go skin the cat?

The esteemed Democrat is a trifé partial. The Dover Public Messenger, THE LEDGER's valued Mason county Republican contemporary, is also urging the candidacy of Mr. Cox, and is doing it most effectively.—ED LEDGER |

Dover Public Messenger.

The Hon. William H. Cox, ex-Mayor of Mayville, and one of the most prominent Republicans in the state of Kentucky, is mentioned as a possible candidate for the Republican nomination for Congress from the Ninth District. Mr. Cox possesses in a marked degree all the attributes which constitute the ideal Congressman—ability, integrity, progressiveness and determination. He is a Republican inspired by patriotism, and a native citizen of our beloved county of Mason whom we should all delight to honor. If we are to have a candidate, why not the Hon. William H. Cox?
